Trade dashboard¹

- ◆ A single, global view of your trade transactions and outstanding portfolio.
- ◆ Convenient and user-friendly highlights needing your attention, such as an import DC that's about to expire or an import bill that's due for payment.
- ◆ Customization options, including adding and reordering widgets, viewing widgets as graphs and updating account selection for each.
- ◆ Interactive widgets: simply click within the widget and it will take you to the specific transaction(s) or action.

Transaction management²

Our new outstanding transactions, pending transactions and application pages offer features to help you efficiently manage your transactions:

A consolidated view of your live transactions across multiple locations, all in one place.

A search function with intuitive filtering so you can find the transactions you're looking for.

Connected transactions are easily visible, such as all the import bills related to an import DC.

Export your data to Excel, either based on your custom view or with your entire transaction data set.

An intelligent approval process, with pending transactions presented based on job role, with the option to authorize, send to repair or change before submitting. Fast and bulk authorization² enables you to select multiple transactions for authorization.

Customize your view by adding new field columns.

Create applications from a range of templates or from scratch, using supporting documentation as necessary.

Request amendments: View live transactions, their real-time status and request amendments.

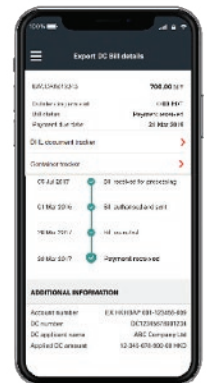

Get real-time FX data using the Get Rate feature for eligible transactions.*

HSBCnet Mobile Trade Transaction Tracker allows you to view your transactions' real-time status on your mobile device, wherever you are.

HSBCnet Mobile authorization enables you to authorize your trade transactions on the go using your mobile device.¹
