

# Mobile Cheque Deposit

## Make deposits using your smartphone and the HSBCnet mobile app

Mobile Cheque Deposit is a fast, convenient and secure way to deposit\* cheques, money orders and bank drafts no matter where you are in Canada and the US.

### Features

#### Quality

High image quality minimizes deposit delays. Both sides of the cheque must be captured by the HSBCnet mobile app for deposit.

#### Security

HSBCnet mobile app requires a login token for added security. Cheque deposits submitted through HSBCnet mobile app are electronically transmitted via secure connection for processing.

#### Processing and control

Auto-balancing allows you to correct or modify items after scanning. Duplicate detection software analyzes each deposit and provides real-time, online notifications.

#### Archive and storage

Images are available online in Mobile Cheque Deposit history for 90 days. After submitting deposits, you must store the actual paper item in a secure location for 30 calendar days.

\*No limits on the number of deposits made, but daily maximum value thresholds may apply.

## How it works

### Step 1

Sign in to your HSBCnet account on the HSBCnet mobile app

### Step 2

Use your smartphone camera to capture an electronic image of your deposit items (cheques, money orders or bank drafts)

### Step 3

Review captured cheque images, with the option to review each image before submitting

### Step 4

Submit your deposit and receive confirmation\*

## Benefits for your business

### Convenient

- ◆ Make deposits wherever you are in Canada and the US
- ◆ Deposit one cheque at a time

### Easy

- ◆ Download the HSBCnet mobile app and log in to the app with your HSBCnet login credentials
- ◆ The intuitive app interface guides you through the process to ensure deposits are accurately scanned and submitted

### Secure

- ◆ Set user access controls to meet your business requirements
- ◆ Deposit items are submitted to HSBCnet over a secure 128-bit encrypted connection

### Efficient

- ◆ The system automatically checks for duplicate items and its auto-balancing feature identifies errors
